CORO ANNOUNCES ELECTION OF DIRECTORS AND RESULTS FROM ANNUAL GENERAL AND SPECIAL MEETING

Vancouver, B.C. July 16, 2015 – Coro Mining Corp. (TSX: COP) (“Coro”, the “Company”) is pleased to report that all of the nominees listed in its information circular dated June 17, 2015 were elected as directors of Coro at the Company’s annual general and special meeting of shareholders held in Vancouver, Thursday, July 16, 2015 (the “Meeting”).

The detailed results of the votes received by proxy are listed below.

	FOR	WITHHELD
Robert A. Watts	60,214,744	147,967
Alan J. Stephens	60,198,941	163,770
Michael D. Philpot	59,976,209	386,502
Alvin W. Jackson	59,959,620	403,061
Roderick J. Webster	59,668,998	693,713
Gordon J. Fretwell	59,928,023	434,688

In addition, the Company announces that its shareholders approved the following other resolutions:

- Approval of certain financing transactions with Greenstone Resources L.P. (the “Financing Transactions”)
- Approval of the alterations to the Company’s Articles
- Approval of the Company’s 10% rolling Stock Option Plan

The approval of the Financing Transactions authorizes the issuance of common shares of the Company including the common shares to Greenstone Resources L.P. as part of the US\$9.0 million combined convertible debt and equity placement that was announced on June 16, 2015. The Company anticipates closing the first tranche of the convertible debenture portion of the Financing Transactions shortly. The proceeds of this first tranche will be used to complete the acquisition of the Nora Plant.

CORO MINING CORP.

Alan Stephens
President and CEO

About Coro Mining Corp.:

Coro’s strategy is to grow a mining business through the discovery, development and operation of “Coro type” deposits. These are defined as projects at whatever stage of development, that are well located with respect to infrastructure and water, which have low permitting risk, and which have the potential to achieve a short and cost effective timeline to production. Our preference is for open pit heap leach copper projects, where we will seek to minimise capital investment rather than maximise NPV, where we will prioritise profitability over production rate, and finally, where the likely capital cost is financeable relative to our market capitalization. Coro’s principal properties are the Berta pre-production project, the Planta Prat copper development project and the Marimaca copper exploration prospect, all located in Chile.
